

***Three Rivers Volkswagen would like to present to you our
Foreign Business Professional Program!***

As you know, many foreign business professionals coming to this country have a difficult time obtaining a loan to purchase a vehicle. Three Rivers Volkswagen has teamed up with Volkswagen Credit to offer to foreign professionals the opportunity to Purchase or Lease a new Volkswagen.

Many foreign business professionals have little or no credit in the United States. Volkswagen understands and respects the need of the foreign business professional. As for credit we do not require it (although any established credit must be in good standing). No need for a cosigner. With Volkswagen, they get to establish their own credit!

All that is needed is:

- Letter from the employer stating position, hire date, income and length of stay in the United States.
- Contact name and phone number of direct supervisor or Human Resources Director.
- Copy of Social Security Card and Visa with expiration date.
- Three personal references in this country.
- Minimum gross income of \$45,000/year and the payment cannot exceed 25% of monthly income.
- Verification of residence and phone number.

Two of the largest obstacles for a foreign business professional are housing and transportation. We will help take care of the second one for them. Volkswagen is a brand known world- wide. Foreign business professional will feel comfortable purchasing a Volkswagen since it is a brand they are already familiar with, since Volkswagen is already the vehicle of choice offered for sale in almost every country.
